

Project #5: Mini-Lecture pt. 2

Your final project will be part two of your mini-lecture (20 minutes) which you will give during the week of 23 June-27 June. Part two of your lecture will focus on EXAMPLES applying the concepts discussed in part 1 (after a quick review of the concepts). Think of this as: for Project 4, you started a new section with 20 minutes left in class one day, now you are spending the first 20 minutes of the next class finishing the section for your class. Remember to ask for questions throughout and be prepared to answer questions from Lawrence or me during the lecture!).

The lectures will be given every day according to the same schedule as Project #4:

Monday through Friday

10:00-10:20am

10:25-10:45am

10:50-11:10am

11:15-11:35am

In addition, you will not have to attend every lecture, but must attend at least two full days (at least 6-7 other lectures). We will follow the same attendance schedule as Project #4. If you are unable to attend one of your assigned days, please let me know right away so we can arrange a switch.

A more detailed rubric is available on the back of this page as I will be grading this one more carefully than Project 4!
